Introduction

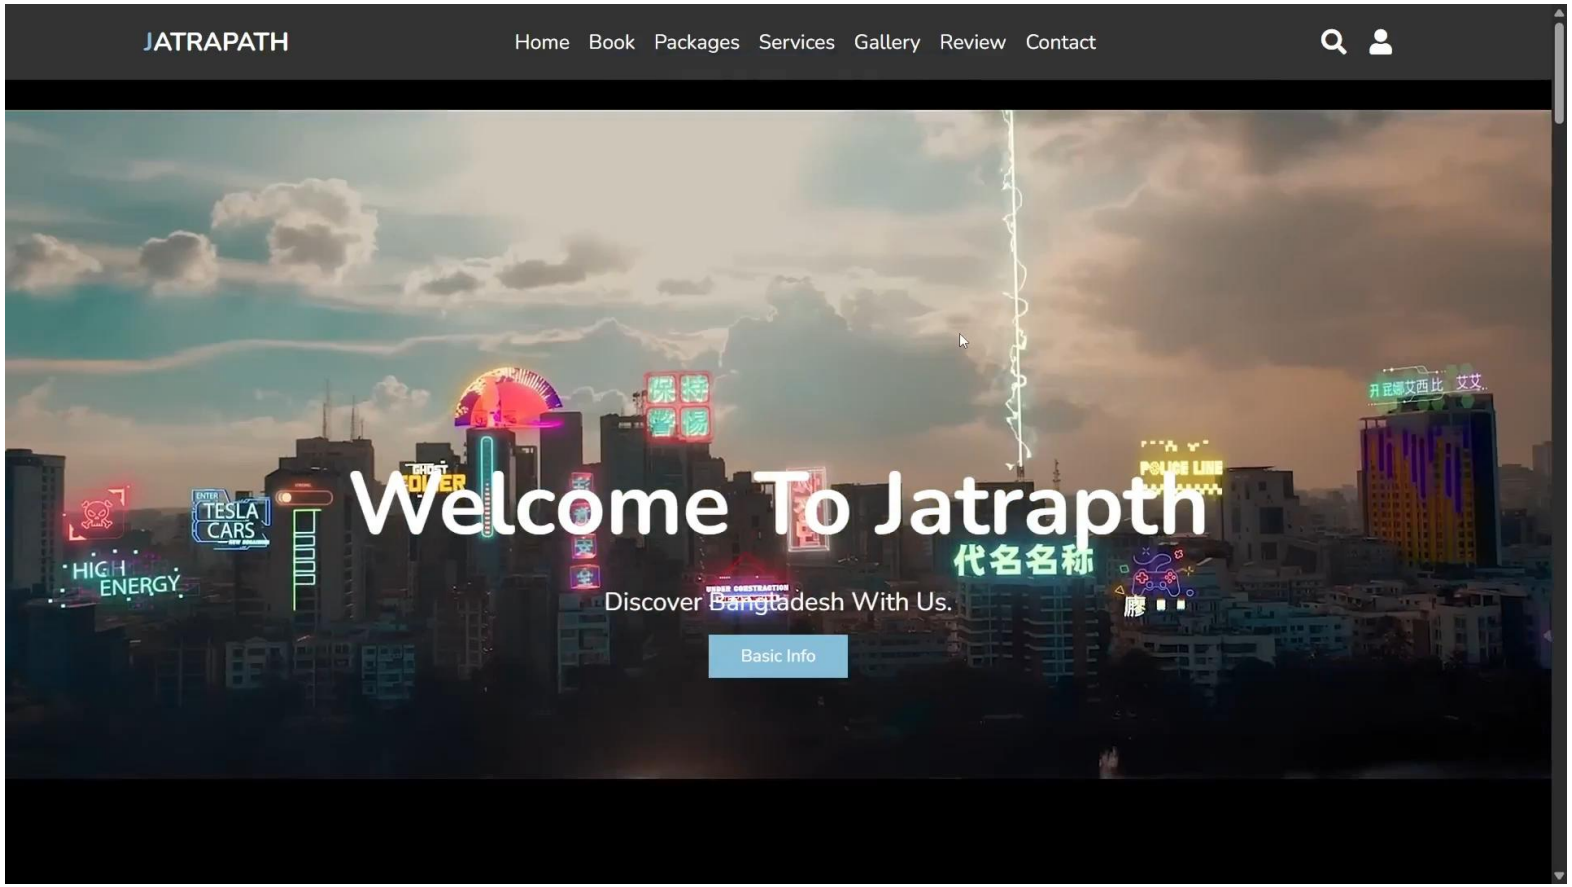
Jatrapath is a travel website dedicated to exploring the beauty of Bangladesh. It helps users discover amazing destinations, plan their journeys, and experience the true spirit of travel across the country.

- Jatrapath is a tourism website dedicated to exploring the beauty of Bangladesh.
- It helps users discover destinations, plan trips, and access travel information easily.
- The platform aims to make travel across Bangladesh simple, enjoyable, and inspiring.

Contribution

ID	Description
04324205101007 Mohammad Mutakabbir Hossain	Idea execution, Review section, Services section, search bar.
04324205101006 Khadijatul Kubra	Idea generation, Designing the user interface, Intro section, Book Now and Js handling.
04324205101042 Badhon Kumar Roy	Packages, Login, Sponsor section, Footer and PPTX.

Project demonstration



Conclusion

Jatrapath offers an easy and enjoyable way to explore the beauty of Bangladesh for both locals and foreign travelers. It provides accurate, up-to-date information on destinations, accommodations, and attractions to help users plan confidently.

Future Work

To make Jatrapath even more useful and user-friendly, we plan to add new features and improvements. These will help travelers explore Bangladesh more easily, get better information, and enjoy a personalized experience whether they are locals or visitors from abroad.

- Expanding the database with more hidden gems and local attractions.
- Developing a mobile app for easy access anytime, anywhere.
- Sharing live updates about weather, events, and travel tips to keep you safe.
- Providing real-time updates on weather, events, and travel alerts.

Thank You
